**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-3, 12, 15-17 and 25, drawn to a method, a system and a computer program product directed to distributed computing, classified in class 709, subclass 201.
  - II. Claims 4-6, 13, 18-20, and 26, drawn to a method, a system and a computer program product directed to executing a worker application, classified in class 717, subclass 103.
  - III. Claims 7-11, 14, 21-24 and 27, drawn to a method, a system and a computer program product directed to supplying a computer against a request and billing for the same, classified in class 705, subclass 26.

2. The inventions are distinct, each from the other because:

Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as executing a worker application which is different from Inventions I and III, which are directed to distributed computing and supplying a computer respectively. Similarly inventions I and III have separate utilities. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, recognized divergent subject matter and the search required for the three groups being different from each other, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. A telephone call was made to Mr. Jeffrey S. LaBaw on 4/23/2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
